Sleeves Pressing Machine for Double Shirts

YUN-552

Sleeves Pressing Machine for Single Shirt

Heating plate of the machine has a large size for pressing, and you may obtain perfect pressing as long as the operating handle is adjusted to a suitable height for the heating plate. The machine is suitable for a variety of fabrics, which have their respectively fixed processes (pressing time, temperature). No additional setting is required.

All uniforms, short sleeves, white coats and shirts are provided with corresponding dismountable hangers for pressing that use suede-like cloth liners, durable in use.

Type	Power	Power Consumption	Steam consumption	Compressor capacity	Steam Pipe	Air pipe line	Running Water	Exhaust Pipe	Weight	Dimensions
YUN-851	3 phase 200V	50W	25kg/h	55L/min 1.5kw	In:B,B=1/2	In B: 1/2	-	-	330 kg	1000x1230x1480
YUN-552	3 Phase 200V	50W	25kg/h	55L/min 1.5kw	In:B,B=1/2	In B :1/2	-	-	210 kg	550x1200x1500

- Double Color Press for White Coa

YUN-652

It has a powerful pressing force, and a smooth process, which can automatically adjust locations during pressing, and not occupy any of your spare time, therefore, production efficiency has been greatly improved up to that of two previous ones. In addition, the extreme high heating efficiency of the heating plate can efficiently save your operation cost, and the compact structure will save more space for you.

Type	Power	Power Consumption	Steam consumption	Compressor capacity	Steam Pipe	Air pipe line	Running Water	Exhaust Pipe	Weight	Dimensions
YUN-652	3 phase 200V	50W	20kg/h	43L/min 0.75kw	In B,B=1/2	In B :1/2	-	-	360 kg	1380x1340x1400
