

## - Double Body press for Nursing Clothing- YUN-706

Portrait Pressing Machine for Double Nurse Uniforms

It is a induced-draught and vertical pressing machine used in a variety of fields, especially for pressing on nurse uniforms, white coats, etc. As there is no forward pressing springs available, no pressing mark will occur, and the pressing effect can be rated as perfect. It can shift from automatic mode to mutual mode according to actual requirements, and all fabrics, including polyester blend, cotton100% etc., have their respectively fixed processes (pressing time, temperature), no additional setting is required. It can automatically count pieces of uniforms pressed, enabling you an easy pressing assignment

Power	Power consumption	Steam consumption	Compressor capacity	Steam line	Air pipe line	Running Water	Exhaust pipe	Weight	Dimensions
3 Phase	750W	40Kg/h	74Litter 2.2 kw	In:1/2 inch.	In: 1/2	1/4	Φ76	630kg	W x D x H (mm)
200V				Out:1/2 inch.					1600 x 1900 x 1910

## - Double Body Press for Semi White Coat- YUN-604/501

YUN-604

Portrait Pressing Machine for Double Half-white Uniforms

YUN-501

Portrait Pressing Machine for Double White Uniforms

Both of the two are double-edged, induced-draught and vertical pressing machines, which can effectively prevent deflection. Pressing for both shoulders and portrait is treated by heating plates. Three grades for air injection are available according to different fabrics Removal and arrangement of uniforms pressed uniforms exchange, so as to ensure are quite convenient, thereby improving production efficiency.

Type	Power	Steam consumption	Compressor capacity	Steam Pipe	Air pipe line	Running Water	Exhaust Pipe	Weight	Dimensions
YUN-604	3 phase 200V	40kg/h	60L/min 2.2kw	In:A,B=1/2	In :1/4	1/4	Φ76	580	1600x1960x1875
YUN-501	3 Phase 200V	40kg/h	80L/min 2.2kw	In:A,B=1/2	In :1/4	1/4	Φ76	650	1600x1960x2030
